PROTEM DEPOMAT (TM)

BANKNOTE DEPOSIT MACHINE

PROTEM DEPOMAT^(TM)

BANKNOTE DEPOSIT MACHINE

Overview

A high-capacity banknote deposit solution, allowing banknotes of multiple currencies to be accurately and reliably counted, authenticated against suspect notes, and safely stored until collection

Unsurpassed Authentication Capability

World-renowned GLORY sensors incorporated into the counting unit of the Protém DEPOMAT (TM) allows for reliable, high sensitivity checking and authentication even at the high counting speeds the unit offers.

Safe and Lock Options from International Standards

Protém DEPOMAT (TM) offers a rich choice of options of safes and locks conforming to international standards to meet your exact security and operational requirements and to cater for cases where you need more than the standard offering of a mechanical lock.

Internationally Recognised "Glory" Quality

The GLORY brand value counting unit featured in the Protém DEPOMAT (TM) offers the best and the latest in counting quality, accuracy and operational reliability, track-proven in diverse working environments the world over.

Intuitive, User-Friendly Interface

A colour LCD touch-screen displaying an intuitive user interface - readily customisable to your exact workflow - will provide an unhindered, smooth deposit process for your staff.

High Storage Capacity, customisable to your needs

A deposit bag with a unique ID, securely fitted in the safe compartment, will accept deposited banknotes and store 10,000 notes as standard - size can be tailored to better fit your needs.

A Real, Physical Escrow

An actual, physical escrow of 200-notes capacity allows for the exact same notes to be returned, if the user wishes to cancel a particular transaction due to any reason after counting and authentication.

Technical Specifications

Model Reference: Protém Depomat

Currencies supported for deposit:

TL, EUR, USD, GBP, RUB / NO

in combinations of 20 currencies

(maximum 256 denominations supported)

Recognition and authentication sensors : 2 x CIS, MG, IR, UV, FL
